

# Ongoing support

Once you have invested in a Simplyhealth health cash plan, we provide a range of services and features to help make sure that investment continues to **perform well**.

## Dedicated account management

We provide an account manager who will be your single point of contact. They will help with the implementation and ongoing maintenance of your plan.

Your account manager will stay in touch regularly so they can provide a service shaped around your needs. They will provide ideas and solutions to help promote the health or dental plan in your organisation.

## Tailored marketing support

We help you launch your health cash plan to employees, with communications that drive employee interest and engagement.

Wellbeing promotion plays a huge part in encouraging employees to maintain their everyday health and performance. We provide co-ordinated campaigns that reinforce the importance of keeping healthy to perform well. For example mental health awareness, back care, and workplace stress along with helpful advice to stop smoking or support to go sugar free.

## Detailed management information

We keep you informed with meaningful analytics on the performance of your health or dental plan so, together, we can evaluate progress and programme effectiveness to further support your employees' everyday health.

All of this is provided regularly, not just at renewal so you can rely on support from day one onwards.
